

## **Campaign Platform**

My campaign is built on three pillars: transparency, engagement, and opportunity.

First, transparency. Students deserve clear and consistent communication about CSI initiatives, decisions, and how their fees are being used. As a member of the Board, I will advocate for regular updates, open forums, and accessible channels where students can ask questions and receive direct responses.

Second, engagement. Having volunteered for orientation programs, served as an executive member of Elev8, and performed at multiple Kick-Off Fest events, I understand the power of student involvement. I want to strengthen connections between CSI and student groups, encourage greater participation in campus events, and ensure every student feels included this includes international students adjusting to a new environment.

Third, opportunity. Conestoga students are ambitious and diverse. I will work to promote leadership opportunities, increase awareness of available resources, and support initiatives that help students grow academically, professionally, and socially.

Leadership requires vision, consistency, and accountability. I am committed to building a CSI that is visible, responsive, and focused on real student impact. Together, we can create a campus environment where every student feels informed, empowered, and represented.
