Conestoga College • Educational Support Program • GPA: 3.75 / 5

“Your Voice, Our Actions — Together We Grow”

01 Opportunity Jobs + Hub + Exposure	02 Guidance Career + Peer Network	03 Exposure Summits + Training
--	---	--

MY PLATFORM

Being a student at Conestoga College I have experienced plenty of things such as balancing my academic career with job and implementing my skills at the same time. Therefore my campaign platform is created on the basis of real life troubles that every students face. Here are three key actions I will prioritise more if elected to the Board of Directors.

1. ON-CAMPUS EMPLOYMENT

As students we work with studying and balance assignments and exam pressure at the same time, hence I can understand the situation. Because of this I have decided that I will advocate **more on-campus job opportunities** to eliminate financial barriers and develop professional skills.

2. CAREER GUIDANCE AND MENTORSHIP

Any student who feels they lack proper guidance or direction will be able to access a student-centred career guidance platform. Metaphorically, think it as **HOGWARTS** where instead of spells students can get mentorship, cogent vision and individual support.

3. INTER-COLLEGE SUMMITS & HANDS-ON TRAINING

In my opinion, learning should take place outside of books in the quickly evolving world of today. I will encourage **inter-college student conferences and applied training** to provide students practical, on-job experience.

“Extraordinary opportunities must never remain exclusive because they belong to every student, without exception.”

OPPORTUNITY HUB, PEER NETWORK & EXPOSURE

The **Student Opportunity Hub** will connect students with national programs, internships, hackathons and community partnerships. The **Peer network and Exposure** will help to give students practice, work ethics and prepare for placements to make their future bright.
