

Leadership That Listens, Action That Delivers

I am running for the CSI Board of Directors because I am committed to making Conestoga a better place for every student. My focus is simple: listen to students, advocate for real change, and ensure that CSI serves everyone equally.

My Platform:

1. Strengthen Student Voice Across All Campuses

Every campus—Doon, Waterloo, Cambridge, Guelph, and beyond—deserves equal representation and engagement. I will ensure that students from all locations have their voices heard in decision-making processes. Whether you're on the main campus or at a satellite location, your concerns, ideas, and feedback matter. I will work to create more opportunities for students across all campuses to connect with CSI leadership and influence the policies that affect their college experience.

2. Amplify Diverse Student Voices

Our strength lies in our diversity. I will champion initiatives that celebrate different cultures, support international students, and create inclusive spaces where every student feels welcomed and valued. Representation matters, and I am committed to ensuring that all student perspectives—regardless of background, program, or campus—are heard, respected, and integrated into CSI's work.

3. Enhance Student Experience

From events and services to support systems and campus life, I will focus on making your time at Conestoga more engaging, supportive, and memorable. By listening to student feedback and working collaboratively with CSI teams and college administration, I will help create experiences that truly meet student needs.

I am passionate about serving students and committed to making a real difference. Let's build a stronger, more inclusive CSI together.
