

Campaign - Board of Directors

My name is Szymon Pelczar, and I am thrilled to re-run for a position on the Board of Directors, where I hope to integrate my values of putting care into everything I do for our school community. My potential position for CSI will require a duty of care from myself, which I strive to prioritize in my daily life.

Now, you may ask how the concept of “care” relates to the position of Board of Directors at our college. Well, I believe it has everything to do with our school and makes the crucial difference between good and great leaders. Care is a foundational quality that transforms someone who does the bare minimum and turns off their phone as soon as they leave the building and someone who is always willing to go above and beyond to serve the people around them. When a leader genuinely cares about the people around them, the goals they pursue, and the impact they create, it fosters trust, loyalty, and, overall, a positive environment where everyone can thrive.

As a man who influences everyone around me, such as my siblings, coworkers, classmates, and peers, it is my absolute duty to put my utmost care into everything I do. It is the least I can do, and I strive to integrate this care into my role as a candidate for this position to serve beyond my purpose and create an environment where people are inspired by my efforts to put their best foot forward. My skills in showing my passion for everything I do will create an attractive energy that positively influences others. The people around me will be motivated to contribute their best work and put their utmost care into everything they do.

In conclusion, my dedication to putting every ounce of care toward all my endeavors makes me an ideal candidate for the Board of Directors. I am confident in my ability to inspire and lead by example, helping to create a school environment built on a foundation of dedication, commitment, and integrity that will influence a prosperous future for our college.
